

ARYAN

Cybersecurity Engineering Student | Tech Enthusiast

Kerala, India | [aryanmsofficial@gmail.com] | 7356891425 | LinkedIn : aryan-ms-a776ab2b9 | Git-Hub : A-ryn

EDUCATION

B.Tech in Cybersecurity Engineering

Royal College of Engineering and Technology, Kerala (KTU-affiliated)

Semester 4 | Expected Graduation: 2028 | CGPA: 8.5

TECHNICAL SKILLS

Languages: Python, HTML, CSS, JavaScript (basics)

Cybersecurity: Linux, Kali Linux, Network fundamentals, Web security (learning)

Tools & Platforms: Git, GitHub, Oracle Cloud VM, VS Code, canva, antigravity

Concepts: Operating Systems, DBMS, Computer Networks, Distributed Systems

Currently Learning: flask API, python automation

PROJECTS

DR. PLANT - AI-Powered Plant Disease Detector

Build with AI 2026 Hackathon | Team F-Society | Proof: LinkedIn post + hackathon participation

- Built a plant disease detection web app using the Google Gemini API under the Smart Agriculture theme
- Handled end-to-end development from API integration to frontend delivery under hackathon time constraints
- Rapidly learned and applied a new AI API in a competitive environment with limited time

HTML/CSS Web Projects

Personal and Freelance Work

- Built multiple static websites and landing pages for real clients using HTML and CSS
- Handled practical deployment and responsive layout for client-facing projects

CERTIFICATIONS & LEARNING

- Strengthening python skills and exploring frameworks like flask
- Exploring TryHackMe rooms and overthewire

AREAS OF INTEREST

- Application Security and Ethical Hacking
- Web Development and Frontend Engineering
- Cloud Infrastructure and Linux Systems
- AI and ML integration in practical applications

STRENGTHS

- Fast learner - able to pick up new tools, languages, and frameworks quickly under pressure (demonstrated in hackathon environments)
- Curious and self-driven - constantly exploring new technologies outside coursework including cloud VMs, Linux, and automation
- Team player - worked in team-based hackathon and project contexts with F-Society
- Rapid prototyper – enjoys building experimental side projects using AI-assisted development tools and modern frameworks

EXTRACURRICULAR

- Participated in Build with AI 2026
- Attended startup bootcamp on entrepreneurship and innovation
- Certificates uploaded on [LinkedIn](#)
